
Day 1 Saturday Fjäderholmarna, Wasahamnen or Vaxholm

Set sail right away and sail out to some of the closer spots to get your vacation started. Popular destinations nearby are Fjäderholmarna, Vaxholm and Wasahamnen.

Fjäderholmarna (59.329258, 18.173551) is the closest one, a small island close to the centre of Stockholm. Cosy restaurants, a little museum and amazing nature.

Wasahamnen (59.326564, 18.091473) is a good marina if you would like to start your vacation centrally. You won't get the archipelago vibe but you can't get any closer to the city and everything that comes with it.

Vaxholm (59.401134, 18.352554) is sometimes referred to as the capital of Stockholm Archipelago. A lot of people and restaurants. Vaxholm is situated on an island but is linked to the mainland by road bridges.

Day 2 Sunday Grinda (59.414158, 18.554634)

Now it's time to get further out, away from the city. We really recommend you visit Grinda, a place where it sometimes seems that time stands still. A beauty!

Just a few hours away but sometimes it feels like lightyears away. Grinda offers real archipelago feelings with a lot of forests and farming.

Grinda has two restaurants, both with amazing sunset views that you only see in movies.

The day offers a lot of exploration. Why not rent a bike and explore the island that way? If you'd like to be on the water, there are always Kayaks and Stand Up Paddleboards as an option.

Read more about grinda at grinda.se.

Day 3 Monday

Finnhamn, Ingmarsö or Söderöra/Norröra

Finnhamn (59.477477, 18.817316) is a group of three islands bordering the open sea, "Stora Jolpen", "Lilla Jolpen" and "Idholmen".

You can swim from the rocks or from small sandy beaches. There is a nice restaurant, Finnhamns Cafe & Krog, with a lovely seaview.

Finnhamn also offers a lot to explore, both by boat and by foot.

At Finnhamn, you'll have a lot of different options - both natural- and guest harbours.

Ingmarsö (59.465862, 18.754939) is a cosy place with a lot of happenings during the summer. Here you are always protected from the winds.

The harbour is a modern one with great facilities and great service. As you arrive, you will get a map over the island and all the possible activities.

Also a good place for those who would like to walk and explore.

Söderöra/Norröra (59.634965, 19.030660) is an option for those who would like to sail a bit further up. The islands offer genuine archipelago feelings and beautiful nature.

The Swedish author Astrid Lindgren choosed this place for her famous TV-Show "Saltkråkan". There are no restaurants or stores on these islands so make sure you are fully prepared food and beverages wise.

Day 4 Tuesday

Möja (59.426164, 18.886350)

Möja is located in the outer archipelago, which offers a pretty unique nature. With its fine country roads, Stora Möja is an excellent cycling and walking island with a lot of wildlife, such as ostriches. Pretty spectacular to be honest.

Möja is full of life during the summer and there are plenty of options when it comes to guest harbours, restaurants and other activities and explorations.

Möja offers a lot of different guest harbours as well as great natural places to anchor. You can read more about them and Möja in general at visitmoja.se.

Day 5 Wednesday

Sandhamn (59.288214, 18.919202)

Sandhamn - lots of everything, from parties to natural experiences.

Sandhamn is known as the "Sailing Capital" and is located in the outer part of the Stockholm archipelago. Moor in the main marina, in "Telegrafholmen" or in "Lökholmen" with ferry links to Sandhamn. The harbour is very attractive with restaurants, cafes and shops.

A short walk across the island takes you to sandy beaches and beautiful nature. A summer resort in the archipelago that you would not like to miss. Be aware though, there are plenty of people here during high season!

Day 6 Thursday

Malma Kvarn or Utö

Depending on how far you would like to sail, Malma Kvarn or Utö are good options on day 6. A pretty common choice by our clients is to visit both these places and maybe take something else out of the suggestion.

Malma Kvarn (59.255493, 18.615151) is a quiet little island and the people there have sailing in their blood. During the summers, there are always sailing camps here for teenagers. However, Malma Kvarn is a nice and quiet, peaceful place where you will really be able to relax.

A cosy little restaurant called Bistro Malma Kvarn is open from June 15th. Worth a visit according to us.

Utö (58.970332, 18.325991) offers two guest harbours, one smaller one and a larger one with many restaurants, shops and bars. A very popular place, especially for kids. Utö is one of the biggest, but also most popular islands in the South Stockholm archipelago. The best place to stay is at the guest harbour on the island's NW side.

At Utö, iron ore has been quarried since early mediaeval times. The mining operation ceased at the end of the 19th century but there are still buildings and other remains of this time on the island.

After the mining epoch, Utö became a centre for bathing and relaxing and one of the first natural resorts for the Stockholm population.

Day 7 Friday

Saltsjöbaden (59.275737, 18.313760)

This is the final evening before heading back to the base. It is therefore important to be close to our base. At 9.00, you need to be back in Saltsjö Pir Marina and ready to leave your yacht for check out.

Important - In Saltsjöbaden you need to fill up the boat with diesel. We do not have that possibility in our marina. The gas station in Saltsjöbaden is staffed between 10.00 and 19.00. Don't forget that you need to show us the receipt.

Saltsjöbaden is a quiet and peaceful, yet pretty lively place, with cosy restaurants and beautiful views. Our food recommendation here is the restaurant at the pier - Holmen Kök & Bar.

Explore the area before heading back to our base the next morning.

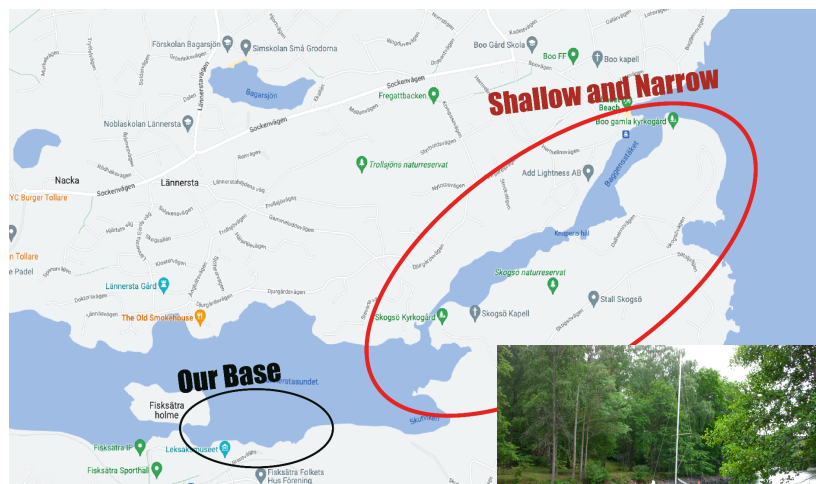

Day 8 Saturday

Saltsjö Pir Marina (59.297218, 18.264387)

When heading back to our base, even if it's on Saturday morning or the evening before - please make sure that you take it slow and careful through Baggensstaket. This is a shallow and narrow strait with a lot of traffic. Be prepared.

Make sure you are back in our marina and ready to check out at 9.00 at the latest.

At our base we'll give you more suggestions and instructions regarding your week(s) in Stockholm. You can also find more information and inspiration, on our website - yachtchartersweden.se. If you have any wonders, please feel free to contact us.

Best regards,
The Crew of Yachtcharter Sweden
